RIVERVIEW GLADIOLI

— Prices —
1931 List
of the
Most Popular Varieties

In presenting this modest little price list, we have endeavored to list only those that have proven themselves in our trial plot. Every year finds many new varieties in our trial plot solely for observation as to color, size of bloom, length of spike and how they stand climatic conditions. Only those that come up to our standards and are priced low enough to be available to the majority, find their way into our sales list. Many highly advertised varieties never get beyond our trial plot because we know they will disappoint our customers.
